OBJECTIVE:

Full-stack developer with hands-on experience in building scalable web applications using React, Node.js, and modern JavaScript frameworks. Developed and deployed multiple full-stack projects with focus on clean UI, efficient backend logic, and RESTful API integration. Proficient in translating product requirements into technical solutions and collaborating in agile teams. Seeking a role where I can apply my skills to develop maintainable, user-focused software and grow with real-world challenges.

PROJECTS:

Academic Resources Hub Web Application --- MERN Stack:-

- **Overview:** The platform offers students access to resources such as syllabi, question banks, and e-books, along with certification courses. It includes quizzes for knowledge assessment and fosters collaboration by connecting students with peers skilled in specific subjects. Personalized course preferences enhance the learning experience.
- **Key Features:**

E-Commerce Web Application --- MERN Stack:-

- **Overview:** Built an e-commerce platform that simplifies product browsing, purchasing, and inventory management for both customers and sellers, reducing operational inefficiencies by 50%.
- **Key Features:**
 - **Owners:** Manage products, orders, and inventory, and categorize orders
 - **Customers:** Register, log in, browse products, and place orders
- **Technologies:**
 - **Frontend:** React.js, Axios, React Router DOM, React Hooks, Context API, Theme Provider.
 - **Backend:** Node.js, Express.js, Express Validator, MongoDB, Mongoose, REST APIs, JWT (JSON Web Tokens), bcrypt.js, Cors, Dotenv, Nodemon.
- **Tools:** Visual Studio Code, Postman, Git/GitHub.
- **GitHub Repository :** <https://github.com/Vmkmanoj/E-COM-Application.git>

News Web Application -- React :-

- **Overview:** Developed a dynamic React-based news application with real-time data fetching to display up-to-date articles. Applied responsive design for an optimized experience across all devices. Utilized React components and hooks to manage state and enhance performance.
- **Key Features:**
 - **Customers:** Streamlined user experience by implementing intuitive date and company filters, increasing user satisfaction scores by 4.5/5 based on user reviews and reducing bounce rate by 15%.
- **Technologies:**
 - **Frontend:** React.js, News API
- **Tools:** Visual Studio Code, Git/GitHub.
